# SEM MASTER STRUCTURAL ENGINEERING

## What is the programme about?

The Master Structural Engineering (SEM) is a collaborative programme between your university and HTWK Leipzig University of Applied Sciences in Germany and is supported in all non-academic and administrative issues by the state recognized German non-profit organization DCG Halle gGmbH – International Institute –.

HTWK Leipzig trademark feature is practice oriented, career relevant education in short and intense courses of study. HTWK Leipzig's curricula have been designed to meet rapidly evolving industry needs, preparing students for high level professional practice in fields such as engineering, business, social science and cultural studies.

The SEM programme is supposed to develop widely educated graduates, who on the one hand can work in all areas of the building industry and on the other hand have state-of-the-art specialist knowledge.

## Programme structure

You have finished your first or second year of the Master study until end of this semester. The credits earned in this are recognized from the German University. You only study one year in Leipzig (Germany) where you do the rest of the modules and write your Master thesis.

You receive your internationally accepted Master of Science by HTWK Leipzig University of Applied Sciences. After your graduation you can stay 18 months in Europe to apply for a job.

## Study in beautiful Leipzig

Study in the lively metropolis of Leipzig ranked first nationwide to have the most attractive inner city. Leipzig is a city of around 624.689 inhabitants.

It is highly appreciated in ambience and flair, its retail sector and the availability of leisure activities. But also accessibility, opening hours, cleanliness and security play a vital role in its ranking. Student life is very convenient using the various possibilities of transport.

Leipzig has a large and wide reaching tram network which covers 218 km of roadway. In addition you can use 61 bus lines serving the city districts. But also bicycling is a very popular and the fastest mean of getting around. Students can also enjoy wonderful parks and lakes, restaurants and bars and the international flair of the city.

## Full service in all non-academic issues

DCG as partner in all non-academic and administrative issues will give full service for applying visa and during your stay in Germany.
